Remote Learning Tools

for Grade 4-5

Poll:

On a scale of 1-5

How comfortable were you with distance learning tools before remote education became a necessity?

But first, housekeeping.

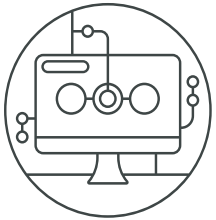
Marketplaces Investing Basics 9–12th Grade					

Educator Benefits

In addition to interactive, supplemental digital resources aligned to your state standards, educators also receive:

Real time Reporting On Students' Knowledge + Growth

Lesson Plans and Discussion Questions



Access to EVERFI's Growing Library of Digital Curriculum

Student Scholarship Opportunities

Online & Offline Resources

Poll:

What is your biggest personal challenge with distance learning?

Future Goals - Hockey Scholar

Math & Science

Grade Level: 4th -7th

Total Lessons: 12 lessons, 20-25 minutes each

Aligns with Common Core Math Standards, State Academic Standards, Next Generation Science Standards

At-a-Glance

Hockey Scholar uses the game of hockey to teach students about important but difficult to teach math concepts. Students apply their math skills to real world scenarios in each of 6 lessons that scaffold students through problems of increasing complexity. Students receive tailored feedback along the way, and get an experience they both love and learn from.

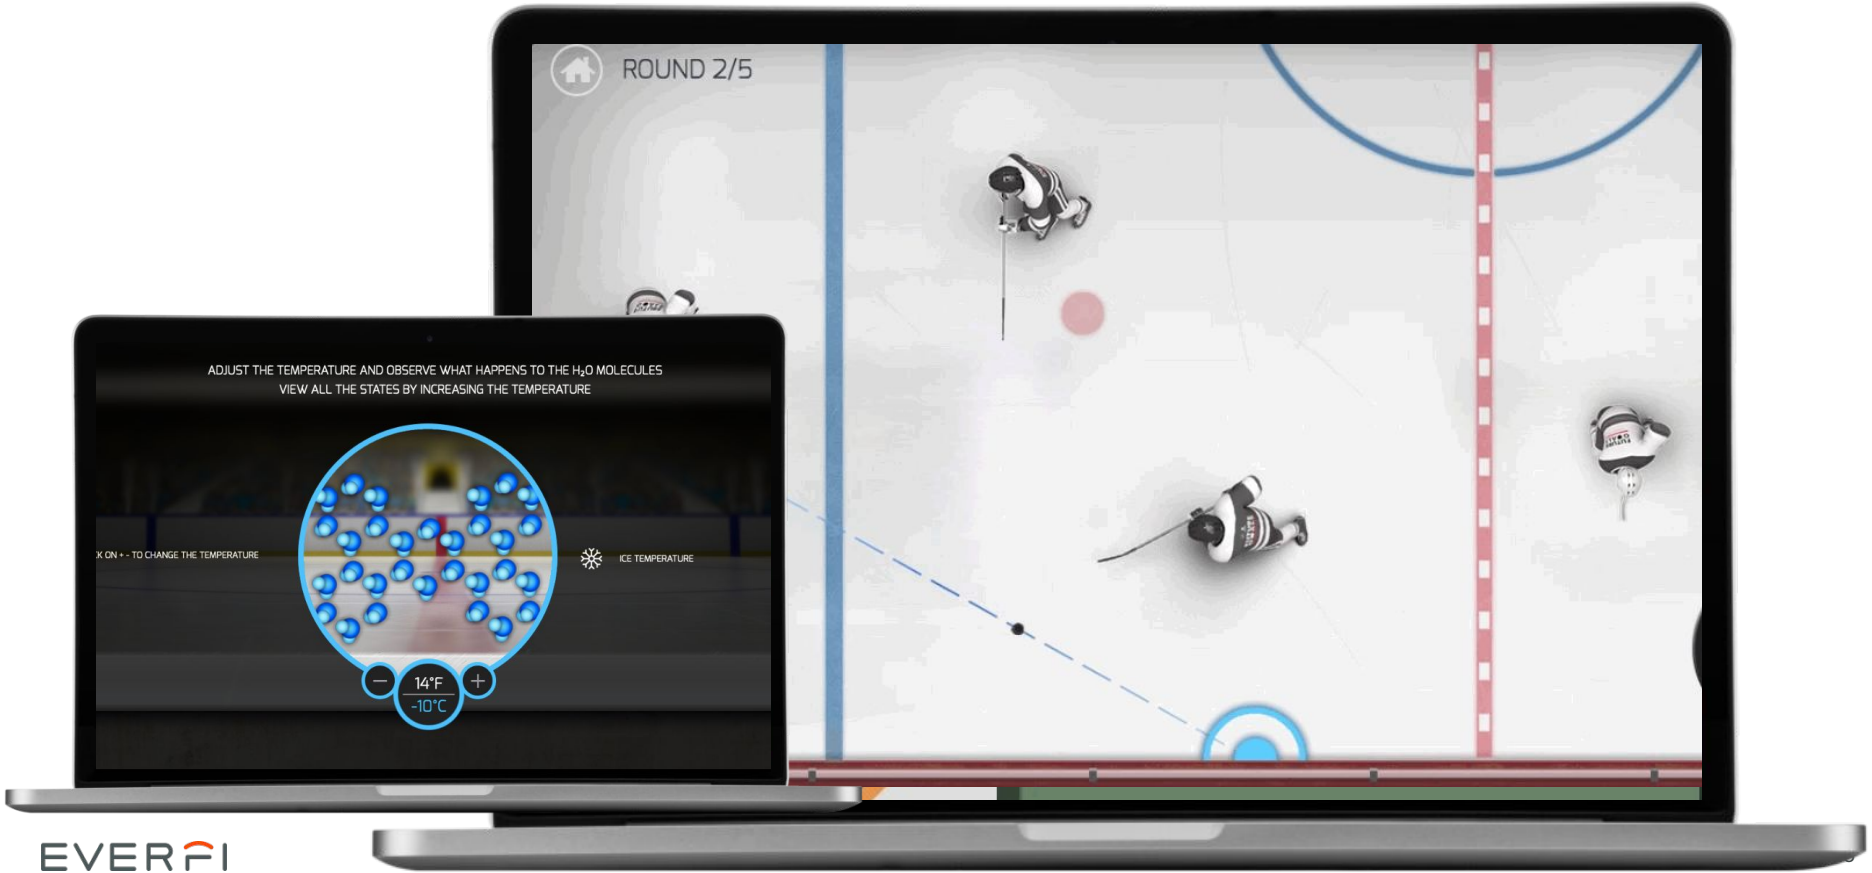
Course Highlights

- Utilizes game of hockey to explore real-life STEM concepts
- Bonus STEM career video content

Course Topics

- Data and graphical analysis
- Calculating area
- Engineering design
- Force and motion

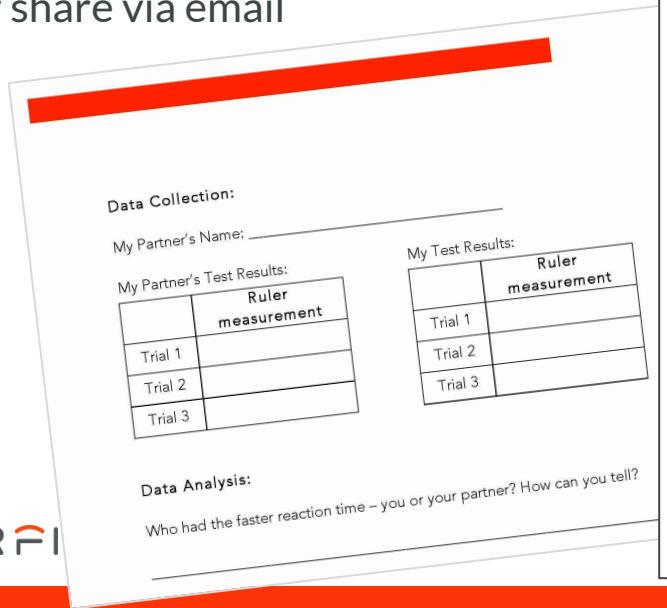
STEM in Action



EVERFI

Offline Student Activities

- Reinforce digital lessons with reflection activities
- Upload to Google Classroom or share via email



Data Collection:

My Partner's Name: _____

My Partner's Test Results:

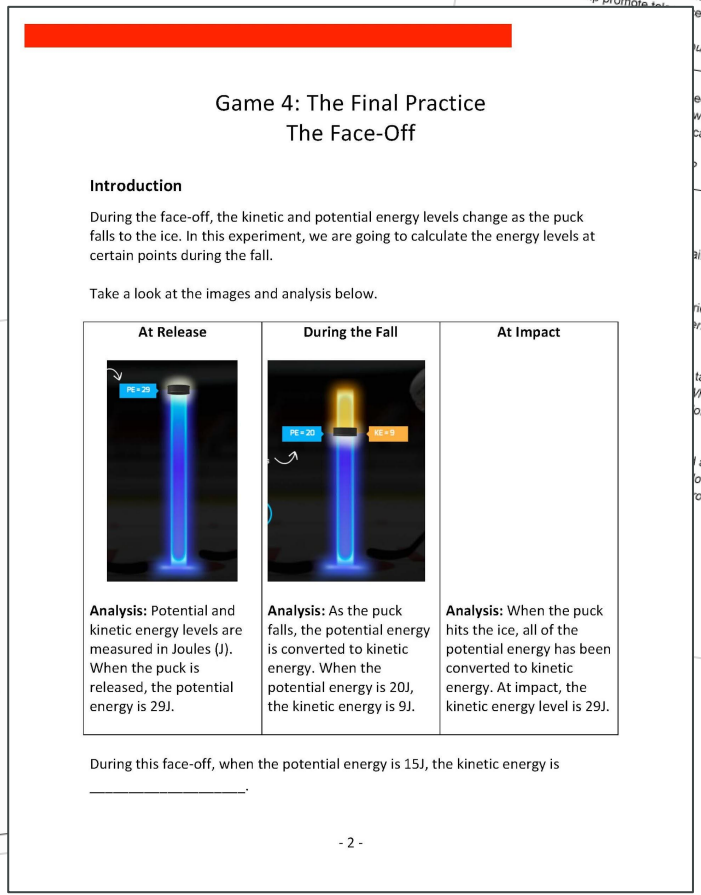
	Ruler measurement
Trial 1	
Trial 2	
Trial 3	

My Test Results:

	Ruler measurement
Trial 1	
Trial 2	
Trial 3	

Data Analysis:

Who had the faster reaction time – you or your partner? How can you tell?



Game 4: The Final Practice
The Face-Off

Introduction

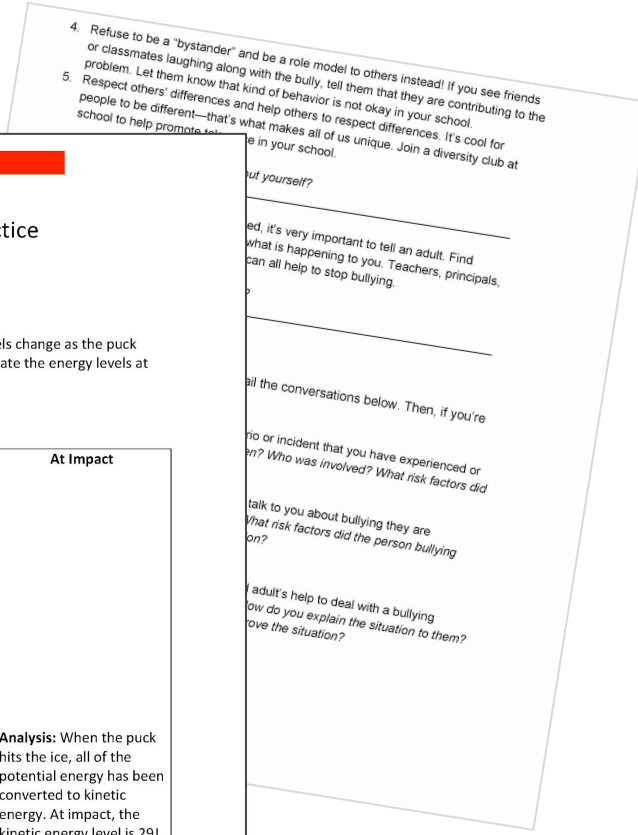
During the face-off, the kinetic and potential energy levels change as the puck falls to the ice. In this experiment, we are going to calculate the energy levels at certain points during the fall.

Take a look at the images and analysis below.

At Release	During the Fall	At Impact
PE = 29	PE = 20, KE = 9	
Analysis: Potential and kinetic energy levels are measured in Joules (J). When the puck is released, the potential energy is 29J.	**Analysis:** As the puck falls, the potential energy is converted to kinetic energy. When the potential energy is 20J, the kinetic energy is 9J.	**Analysis:** When the puck hits the ice, all of the potential energy has been converted to kinetic energy. At impact, the kinetic energy level is 29J.

During this face-off, when the potential energy is 15J, the kinetic energy is _____.

- 2 -



4. Refuse to be a "bystander" and be a role model to others instead! If you see friends or classmates laughing along with the bully, tell them that they are contributing to the problem. Let them know that kind of behavior is not okay in your school.
5. Respect others' differences and help others to respect differences. It's cool for people to be different—that's what makes all of us unique. Join a diversity club at school to help promote te... e in your school.

...ut yourself?

...ed, it's very important to tell an adult. Find what is happening to you. Teachers, principals, can all help to stop bullying.

...ail the conversations below. Then, if you're

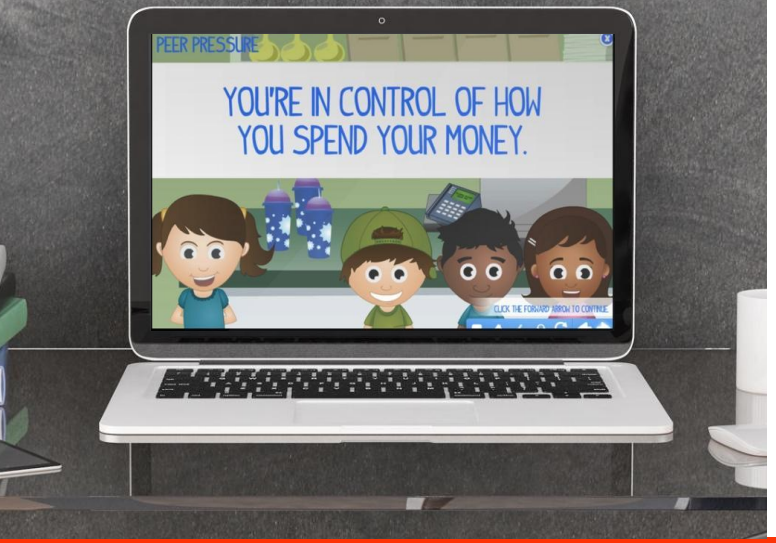
...rio or incident that you have experienced or ...en? Who was involved? What risk factors did

...talk to you about bullying they are ...What risk factors did the person bullying ...on?

...adult's help to deal with a bullying ...ow do you explain the situation to them? ...ove the situation?

Vault
Understanding Money

Grade Level: 4th -6th
Total Lessons: 6 lessons, 30-35 minutes each
Aligns with state and national Jump$tart standards



At-a-Glance

Vault - Understanding Money empowers students to be smart financial decision makers while they are early in their cognitive development. By leveraging performance-based games, *Vault* immerses students in real-life financial scenarios that focus on skill building and responsible decision making.

Course Highlights

- Embedded, performance-based games
- Personalized offline goal-setting activities
- Supplemental lesson plans for teachers

Course Topics

- Setting financial goals
- Taxes, income, budgeting , savings plans
- Investing, borrowing, credit vs. cash
- Needs & wants, managing risks

Understanding Money

Financial Literacy Month

- A selection of 15-minute financial literacy lessons, discussion guides, and worksheets to get the whole family involved in financial learning.

- Simply upload to Google Classroom or share via email

Elementary School

EVERFI Financial Literacy Month
Navigate Your Financial Future

We're excited to offer a bundle of activities to extend your learning around financial literacy at home. Each activity will help students learn skills to navigate their financial future.

Step 1 Help your student access the online lessons:

1. Go to **www.everfi.com/login** & click **Register.**
2. Add the Registration Code from your school/teacher*.
3. Set up your profile (name, username, password).
4. Click **Start** for Vault: Understanding Money.

** No code? Visit get.everfi.com/parent-remote-learning to find your school's registration code.*

Step 2 Use the table below for 15 days of financial literacy activities:

These icons tell you the activity type:

Online Lesson | Independent Activity | Discussion

Day	Topic	Activity Type	Estimated Time	Supporting Materials	Done? ✓ if yes
1	Responsible Money Choices		30 min	Graphic organizer	☐
2			15 min	Worksheet	☐
3			15 min	Discussion question	☐
	What are some things your family needs? How does your family plan to spend money on different needs, wants, and goals?				
4	Income and Careers		30 min	Graphic organizer	☐
5			15 min	Worksheet	☐
6			15 min	Discussion question	☐

What is your dream career? What do you like about that career? What do you need to do to get that career? Have you ever considered another career?

ney Choices Day 2 | Vault: Understanding Money

ty: My Money Plan

y you would like to use your money now and in the future? Use the worksheet ngs and spending goals and habits.

ey I have right

e are some things I spend my money on right now:

oney on right now. Cross out the things that you could make a smart ion about and take away to help you save.

I am saving for...

Long-Term (years away)

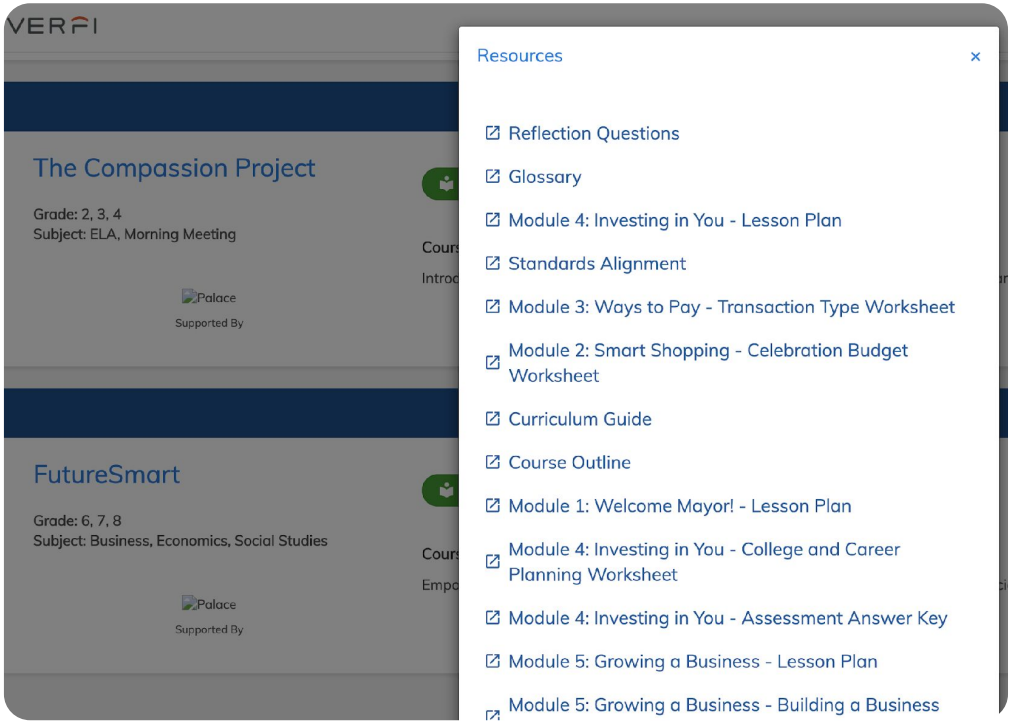
Item:

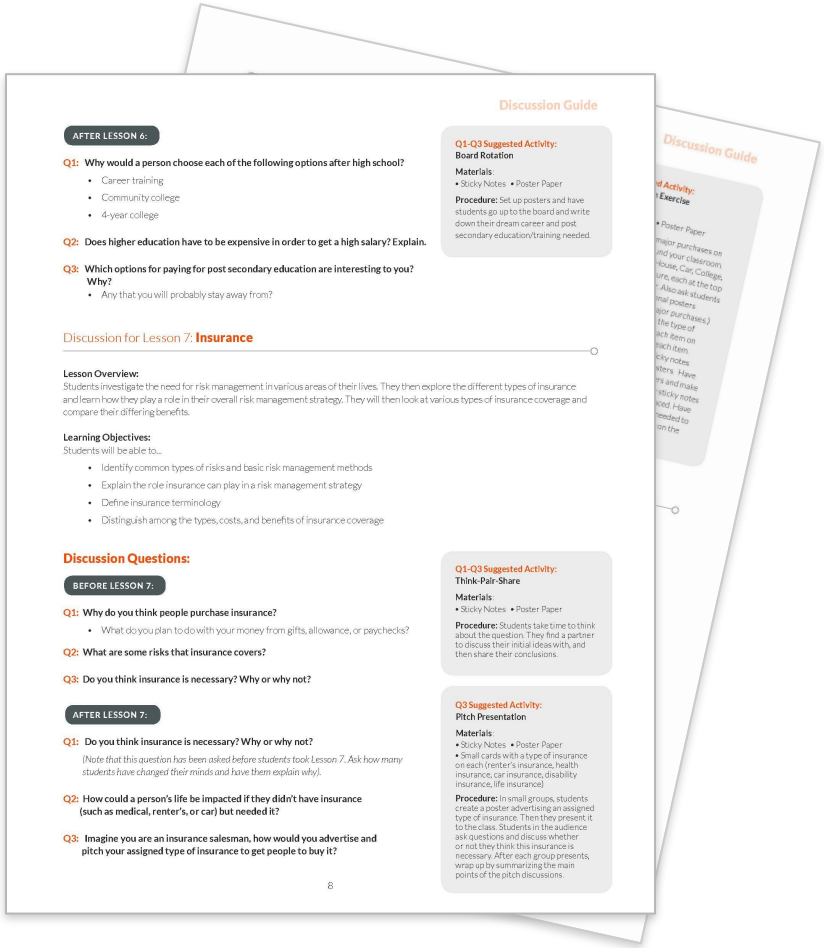
Price:

People that could help me reach my savings goals:

Literacy & Math Games

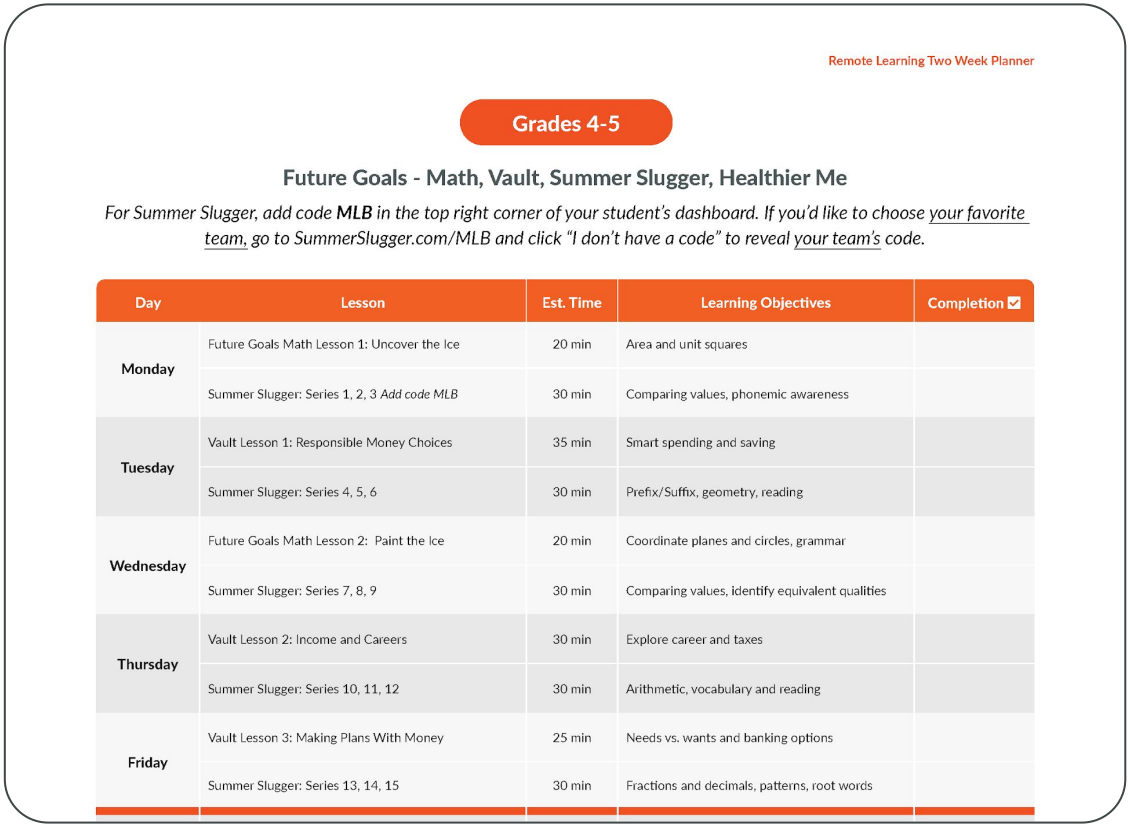
Offline Resources





Planning Ahead

- 2-Week Content Playlist
- Enrichment, with Learning Objectives
- Life Skills, Self-Improvement
- Standards alignment available



Remote Learning Two Week Planner

Grades 4-5

Future Goals - Math, Vault, Summer Slugger, Healthier Me

*For Summer Slugger, add code **MLB** in the top right corner of your student's dashboard. If you'd like to choose your favorite team, go to SummerSlugger.com/MLB and click "I don't have a code" to reveal your team's code.*

Day	Lesson	Est. Time	Learning Objectives	Completion ☑
Monday	Future Goals Math Lesson 1: Uncover the Ice	20 min	Area and unit squares	
	Summer Slugger: Series 1, 2, 3 *Add code MLB*	30 min	Comparing values, phonemic awareness	
Tuesday	Vault Lesson 1: Responsible Money Choices	35 min	Smart spending and saving	
	Summer Slugger: Series 4, 5, 6	30 min	Prefix/Suffix, geometry, reading	
Wednesday	Future Goals Math Lesson 2: Paint the Ice	20 min	Coordinate planes and circles, grammar	
	Summer Slugger: Series 7, 8, 9	30 min	Comparing values, identify equivalent qualities	
Thursday	Vault Lesson 2: Income and Careers	30 min	Explore career and taxes	
	Summer Slugger: Series 10, 11, 12	30 min	Arithmetic, vocabulary and reading	
Friday	Vault Lesson 3: Making Plans With Money	25 min	Needs vs. wants and banking options	
	Summer Slugger: Series 13, 14, 15	30 min	Fractions and decimals, patterns, root words
