

SCHOOL YEAR 2023-24

# Scholarship Opportunities for K-12 Students

At EVERFI, we're passionate about whole-child learning and equipping students with the real-world skills they need to thrive in an ever-changing world. For the past 15 years, we've built high-quality learning resources on real-world topics like financial education, STEM, career exploration, and health & wellness.

Our digital learning platform and library of 40+ courses are completely free of charge to K-12 schools. We secure national and regional strategic partners to sponsor K-12 schools in the United States and Canada. These partners fund our interactive digital courses as well as a variety of annual college savings scholarships and contests available to EVERFI students.

EVERFI and our network of strategic partners offered students nearly **\$300K** in college savings scholarships last school year.

My dream for the future is to become a high school math teacher so I can help inspire students the way my teachers have inspired me. I'm very thankful for this scholarship because it means I'll be able to pursue my dreams.

These opportunities are available to students who take our digital courses.

– **High School Student** and  
Past Scholarship Winner, Nevada

## Scholarship Application Process:

1

### LEARN

Depending on the scholarship, complete one or more digital lessons from a select EVERFI course.

2

### WRITE

Construct an essay in response to a given prompt. Essays are typically 300-500 words in length.

3

### SUBMIT

Complete a brief application form with contact information and school details.

The Accounting+ scholarship will help me achieve my career goals as I'll use it to fund my academic and professional pursuits. It is like making an investment in myself and my future. Not only does this help me financially, but it reaffirms my desired career path showing me that accounting skills are applicable just about anywhere. I am so incredibly grateful for this opportunity and all I've learned in the process.
